

Laptop Applications

Due to the increased demand on the Eagle House Educational Trust Grants Programme we are revising the application process for laptops, as of 1 April 2015.

Eligibility

Young people (up to age 18) are eligible for a list of items from the CLA budget, inclusive of a laptop if going into further/higher education. Therefore, applications for laptops will only be accepted from those applicants who have not claimed for a laptop from CLA, but have since secured a place in further/higher education.

Applicants will also need to show whether or not the cost of a laptop has been considered from the Pupil Premium at their PEP meetings.

Decisions

All applications from young people who are intending to go on to further/higher education in September, will be considered in October of the same year in a competitive round.

Successful applicants will need to provide evidence of enrolment, together with a reference from their tutor before the funds can be released.

Applications from young people already in further/higher education will be considered in the usual manner, with an approximate two-week turnaround.
